NOTICE OF A PROPOSED VOLUNTARY CLEANUP PLAN UNDER THE ALABAMA LAND RECYCLING AND ECONOMIC REDEVELOPMENT ACT (ALRERA) FOR THE PARKER HANNIFIN FACILITY LOCATED IN HUNTSVILLE, ALABAMA.

Parker Hannifin has submitted a Voluntary Cleanup Plan for the Parker Hannifin facility located at 9400 South Memorial Parkway in Huntsville, Madison County, Alabama. The property was developed in 1961. Prior to construction of the facility, the area was used for agricultural purposes. The Voluntary Cleanup Plan is currently under review by the Department.

Copies of the Voluntary Cleanup Plan are available for public inspection through August 2, 2010 during normal business hours Monday through Friday, except legal holidays at the following locations:

Huntsville-Madison Public Library  
Eleanor E. Murphy Branch  
7910 Charlotte Drive  
Huntsville, AL 35802  
256-881-5620

Alabama Department of Environmental Management  
P.O. Box 301463 (Zip 36130-1463)  
1400 Coliseum Boulevard (Zip 36110-2059)  
Montgomery, Alabama  
(334) 271-7700

Copies may be obtained by contacting Mr. Russell Kelly, ADEM, at the above address. A nominal fee for copying and/or emailing will be charged. Arrangements for copying should be made in advance.

In order to affect final decisions, all comments must address issues that have an impact on the applicant's ability to comply with applicable environmental laws, rules, and regulations. ADEM maintains a list of interested individuals who are mailed legal notices issued by the Department. If you wish to receive such notices, please contact Mr. Russell Kelly at the Montgomery address.

This notice is hereby given on the 30th day of June, by authorization of the Alabama Department of Environmental Management.

---

Lance R. LeFleur  
Director

ADEM VCP Site #: 461-9328**

**Fact Sheet**

Voluntary Cleanup Program (VCP) Cleanup Remediation Activities have been initiated at the Parker Hannifin facility located at 9400 South memorial Parkway, in Huntsville, Alabama. This fact sheet has been prepared to briefly advise the public of the principal legal and policy issues of the VCP.

**I. VCP PROCESS**

The VCP provides a mechanism for the implementation of a cleanup program that encourages applicants to voluntarily assess, remediate, and reuse rural and urban areas of actual or perceived contamination. The program does not relieve any "responsible person" for the liability for administrative, civil, or criminal fines or penalties which are otherwise authorized by law and imposed as a result of the illegal or unpermitted disposal of solid waste, hazardous waste, hazardous constituents, hazardous substances, petroleum products, and/or pollutants to the land, air, or waters of the State on an identified property. The program is designed to expedite the voluntary cleanup process and has been designed for entry at any stage of the cleanup process as long as all applicable criteria have been met up to the point of entry.

**II. PROCEDURES FOR REACHING A FINAL DECISION**

The Alabama Department of Environmental Management (ADEM) is proposing to issue Parker Hannifin a decision for the Light Non-Aqueous Phase Liquid (LNAPL) remediation at the Parker Hannifin facility.

ADEM Admin Code R. 335-15-6-.02 requires that the public be given a 30-day comment period from the date of the notice. The comment period will begin June 30, 2010 which is the date of publication of the public notice in major local newspaper(s) of general circulation and will end on August 2, 2010.

Any person interested in commenting on the application or draft permit must do so within the 30-day comment period discussed above.

All persons wishing to comment on any of the conditions of the VCP Remediation should submit their comments in writing to the Alabama Department of Environmental Management, Permits and Services Division, 1400 Coliseum Blvd. (Zip 36110). P.O. Box 301463 (Zip 36130-1463) Montgomery, Alabama, ATTENTION: Mr. Russell Kelly. Written comments on the VCP activities should be submitted to the Alabama Department of Environmental Management and be received by 5:00 p.m. on August 2, 2010.

ADEM will consider all written comments received during the comment period while making a final decision on this issue. When the Department makes its final decision, notice will be given to the applicant and each person who has submitted written comments or requested notice of the final decision.

### **III. FACILITY DESIGN**

Parker Hannifin has completed Site Investigation activities under the VCP at the Parker Hannifin facility located at 9400 South Memorial Parkway, Huntsville, Madison County, Alabama. Parker Hannifin began operations at the site in 1961. The facility produced milled valves. As part of the production, electroplating operations were conducted at the facility. The property enrolled into the Voluntary Cleanup Program comprises a 15.6 acre tract. This cleanup plan addresses the LNAPL contamination on the property. The site is zoned for commercial use; residential use is prohibited for current or future site development. Prohibition of groundwater use for potable purposes will be ensured. Institutional and engineering controls will be used to eliminate or minimize potential exposures associated with future use and/or development.
